# FESS HOLDS OUT AGAINST BEER AMENDMENT

Republican Control of House Is In Jeopardy.

Washington, March 20.—Revolt over the prohibition of beer and light wines has placed Republican control of the national house of representatives in jeopardy.

This revolt is growing in extent and intensity every day, and Republican leaders are much alarmed lest the Democrats shall be able to snatch control of the house in the November election by catering to the wet element in some fifty urban congressional districts.

The demand that the Republican leadership shall face about, on the beer and wine issue has become so insistent that Representative Simeon D. Fess, chairman of the Republican congressional committee, is a veritable storm center of appeals for a relaxation of the party's rigid stand on the prohibition question.

It is pointed out as evidence that the Democrats are preparing to cater to the wet vote in wet districts, the fact that a commissioner of internal revenue has just been appointed, William Martin Williams, of Alabama, who has always trained and voted with the anti-prohibitionists and whose appointment is palpably a sop to the element in the country that clamors for a more liberal administration of the national prohibition law than has been given by Commissioner Dan C. Roper.

The appeals to Chairman Fess to save the Republican house by weakening on the liquor question have fallen on absolutely deaf ears. As chairman of the congressional committee he will not countenance any backward step on prohibition or any movement that winks at a violation of the prohibition law now on the statute books.

"We must uphold and defend the Volstead law in our national platform," he said, "and if the Democrats anywhere take any other course we must stand up and fight them. On a matter of principle like this there there must not be any retreat anywhere along the line."

The election of a Democratic house, it is conceded, would put the Republicans at a great disadvantage if they should win the presidency, as the house in that event could tie up Republican legislation and make it impossible to carry out Republican policies. The seriousness of the situation is admitted by Chairman Fess and other leaders, but they say that never with their consent will there be any "back tracking" on the liquor question.

## STREET CLEANER FINDS VALUABLES

Springfield, March 22.—Interest in one of Springfield's unsolved robberies was awakened yesterday morning, when part of the loot taken from the home of T. J. McCormick, 444 East High street, on the morning of December 31, was recovered.

Among the articles were several purses containing a variety of articles including a manicure set, keys, rosaries, a note, photographs and business papers.

A purse containing \$100, a box of coins, rings, four five dollar gold pieces and a gold watch taken by the robbers have not been recovered.

The finder of the booty, John Shay of 711 Burt street, a new member of the city's street cleaning force, yesterday being his first day on the job, was assigned to clean out a sewerage basin at the corner of Plum and High streets and the first shovel full of mud brought to light a purse containing a note and papers which identified it as the property of Mr. McCormick.

## URGES FUNDS FOR STATUE ON MARNE

Dayton, O., Mar. 20.—Mayor Switzer yesterday issued an appeal to the people of Dayton to contribute funds for the erection of a monument on the banks of the Marne river, France, to commemorate the battle that stopped the tide of the German advance into France.

The appeal is as follows: "The American nation is planning to erect on the banks of the River Marne, in France, a colossal statue to commemorate the spot where the armies of France under Joffre saved Europe and civilization in September, 1914."

The erection of this statue has received the approval of the Council of Ministers of France and the endorsement of governors and leading citizens of the United States.

This statue will serve as a return gift for the Statue of Liberty given us by all France in 1885, and will tend to bind more closely these two great Republics of the world.

The week beginning March 22 will be known as Marne Memorial Week, and during that period a great, popular, nationwide free-will offering will be made to America's gift to France.

It is requested by the National committee in charge that every person give something (if only one cent) since the amount collected will be considered less important than the number of subscribers. I am pleased to pass this request on to our citizens for their consideration.

Contributions should be sent to Mrs. E. C. T. Miller, 3738 Euclid Avenue, Cleveland, Ohio.

J. M. SWITZER, Mayor.

GOOD HOUSEKEEPERS USE BEST. That is why they use Red Cross Ball Blue. All leading grocers. 5 cents.

## GOVERNMENT WILL FIND WAY TO TAX ALL STOCK DIVIDENDS

Chicago, March 22.—The government will find a way to tax stock dividends, despite the decision of the supreme court, it was declared in an address here by Federal Judge Kenesaw M. Landis speaking at a mass meeting of postal employees called to protest against low wages in the postal service.

"Even though I may be misunderstood, I wish to say that, concerning corporation stock dividends, it is a matter of opinion that there are many melons to be cut from the accumulated profits of 1917, and that they are to be disposed of through a stock dividend program."

"I will give those men warning that a way will be found through which the United States will have the power to tax a stock dividend. I am

not criticizing any court in this matter, however."

Judge Landis roundly berated the low salary system in force among employees of the government, terming it "the rankest kind of injustice."

## ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

## Sixteen Years Experience

For sixteen years, a corps of metallurgists have been studying and constantly perfecting the steel that goes into every part of the Ford car and the Ford One Ton Truck. Each separate part has been studied to learn the type of steel best fitted for it. Parts receiving constant surface-wear are made of hard, flint-like metal; parts subjected to great vibration or resilience are made of softer, springy steel. Every part is made according to its use—that is, every Genuine Ford part is.

But there are also counterfeit "Ford" parts. These imitations are made by concerns in no way connected with the Ford Motor Company and retailed as side-lines by mail-order houses, down-town stores, and many garages. The unsuspecting customer accepts them because they are called "Ford" parts. To make sure of getting the genuine Ford-made parts, buy them only from Authorized Ford Dealers. Likewise bring or take your Ford care to our garage for repairs, replacements, and general "tuning up."

We are Authorized Ford Dealers. We can supply you with all Ford parts for either passenger car or truck. And our shop is equipped to give real Ford service in all repair work.

## FESS HOLDS OUT AGAINST BEER AMENDMENT

Republican Control of House Is In Jeopardy.

Washington, March 20.—Revolt over the prohibition of beer and light wines has placed Republican control of the national house of representatives in jeopardy.

This revolt is growing in extent and intensity every day, and Republican leaders are much alarmed lest the Democrats shall be able to snatch control of the house in the November election by catering to the wet element in some fifty urban congressional districts.

The demand that the Republican leadership shall face about on the beer and wine issue has become so insistent that Representative Simeon D. Fess, chairman of the Republican congressional committee, is a veritable storm center of appeals for a relaxation of the party's rigid stand on the prohibition question.

It is pointed out as evidence that the Democrats are preparing to cater to the wet vote in wet districts, the fact that a commissioner of internal revenue has just been appointed, William Martin Williams, of Alabama, who has always trained and voted with the anti-prohibitionists and whose appointment is palpably a sop to the element in the country that clamors for a more liberal administration of the national prohibition law than has been given by Commissioner Dan C. Roper.

The appeals to Chairman Fess to save the Republican house by weakening on the liquor question have fallen on absolutely deaf ears. As chairman of the congressional committee he will not countenance any backward step on prohibition or any movement that winks at a violation of the prohibition law now on the statute books.

"We must uphold and defend the Volstead law in our national platform," he said, "and if the Democrats anywhere take any other course we must stand up and fight them. On a matter of principle like this there there must not be any retreat anywhere along the line."

The election of a Democratic house, it is conceded, would put the Republicans at a great disadvantage if they should win the presidency, as the house in that event could tie up Republican legislation and make it impossible to carry out Republican policies. The seriousness of the situation is admitted by Chairman Fess and other leaders, but they say that never with their consent will there be any "back tracking" on the liquor liquor question.

## STREET CLEANER FINDS VALUABLES

Springfield, March 22.—Interest in one of Springfield's unsolved robberies was awakened yesterday morning, when part of the loot taken from the home of T. J. McCormick, 444 East High street, on the morning of December 31, was recovered.

Among the articles were several purses containing a variety of articles including a manicure set, keys, rosaries, a note, photographs and business papers.

A purse containing \$100, a box of coins, rings, four five dollar gold pieces and a gold watch taken by the robbers have not been recovered.

The finder of the booty, John Shay of 711 Burt street, a new member of the city's street cleaning force, yesterday being his first day on the job, was assigned to clean out a sewerage basin at the corner of Plum and High streets and the first shovel full of mud brought to light a purse containing a note and papers which identified it as the property of Mr. McCormick.

## URGES FUNDS FOR STATUE ON MARNE

Dayton, O., Mar. 20.—Mayor Switzer yesterday issued an appeal to the people of Dayton to contribute funds for the erection of a monument on the banks of the Marne river, France, to commemorate the battle that stopped the tide of the German advance into France.

The appeal is as follows: "The American nation is planning to erect on the banks of the River Marne, in France, a colossal statue to commemorate the spot where the armies of France under Joffre saved Europe and civilization in September, 1914."

The erection of this statue has received the approval of the Council of Ministers of France and the endorsement of governors and leading citizens of the United States.

This statue will serve as a return gift for the Statue of Liberty given us by all France in 1885, and will tend to bind more closely these two great Republics of the world.

The week beginning March 22 will be known as Marne Memorial Week, and during that period a great, popular, nationwide free-will offering will be made to America's gift to France.

It is requested by the National committee in charge that every person give something (if only one cent) since the amount collected will be considered less important than the number of subscribers. I am pleased to pass this request on to our citizens for their consideration.

Contributions should be sent to Mrs. E. C. T. Miller, 3738 Euclid Avenue, Cleveland, Ohio.

## GOVERNMENT WILL FIND WAY TO TAX ALL STOCK DIVIDENDS

Chicago, March 22.—The government will find a way to tax stock dividends, despite the decision of the supreme court, it was declared in an address here by Federal Judge Kenesaw M. Landis speaking at a mass meeting of postal employees called to protest against low wages in the postal service.

"Even though I may be misunderstood, I wish to say that, concerning corporation stock dividends, it is a matter of opinion that there are many melons to be cut from the accumulated profits of 1917, and that they are to be disposed of through a stock dividend program."

"I will give these men warning that a way will be found through which the United States will have the power to tax a stock dividend. I am

not criticizing any court in this matter, however."

Judge Landis roundly berated the low salary system in force among employees of the government, terming it "the rankest kind of injustice."

## ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states, that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food, fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, water-brash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescent, and furthermore, to continue this for one week. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

## SO FAR AS THE UNITED STATES SENATE IS CONCERNED, THE DEAD OF THIS WAR HAVE DIED IN VAIN.

We just wonder now whether all this time a gentleman by the name of Woodrow Wilson has been playing the sharpest kind of politics in holding his bodyguard in the Senate against the adoption of the Versailles Treaty with reservations, so as to force it as an issue into the Presidential campaign, on the ground that it should have been adopted without reservations.

Because three-fourths of the people of this country, and all the balance of the world, wanted the Treaty adopted, it is going to make an ugly issue in the campaign for the democracy to be in favor of the Treaty and the Republicans against it. At this distance from the election, we don't like the looks of the thing.

So many men, so much wiser than we, were of the opinion that the Treaty should have been adopted, with or without reservations, that we know public opinion is in that line, and public opinion is the arbiter at the polls nine times in ten.

We sent our dear boys to fight, bleed and die for a great cause—we won a great victory and the world seemed entering upon a new and brighter phase of life—then came the clinching of the long drawn struggle, a momentous struggle to wipe out war forever—and behold the greatest nation on earth refuses to stand to its guns in the battle—cowardly retreats. Can the situation be described any less humiliatingly?

Ex-President Taft and William Jennings Bryan stand as samples of hundreds of very able men who have pleaded for a year for the adoption of the Treaty. They believed it the greatest world movement ever undertaken. Refusing to look backward at the conflicts of the ages, they had the inspiration of a God-given faith to look forward to the time when men would beat their swords into plowshares and their spears into pruning hooks.

Under christian influences and law millions of men live in peace—why may not nations do the same? They could, were it not for a few designing ones of bad spirit who embroil others and stir up strife. But people are all the time getting wiser—they are getting the Americanization spirit—they are learning of us. The only trouble with us is our too liberal immigration laws.

Back a third of a century ago Horace Greeley's New York Tribune echoed true to the feelings of millions of northerners, and later in our own Whitelaw Reid's day it kept the faith splendidly, and is still unswerving in its Americanism. Here is what it thinks of this latest of solid-south statesmanship:

"The treaty's defeat is a tragedy whose poignancy is intensified by the sordidness of the final scene. The country beholds the president wrecking a great undertaking for no better reason than because he was not allowed to ignore the constitution. The whole country beholds him assisted by a group of senators who became infested with his narrowness and were thus unable to lift themselves to levels of statesmanship."

## GREETINGS FROM BISHOP ANDERSON TO THE METHODIST PASTORS AND CHURCHES OF THE CINCINNATI AREA:

It is an unspeakable joy to be back again in God's country. It is a privilege more precious than gold to be permitted to meet the need of a day like this with the gospel of a risen, glorified, and triumphant Lord. Verily there are many who cry "Peace, peace, when there is no peace."

It is right that our Centenary appeal should now be followed calm confidence and perfect poise of that "peace of God which passeth all understanding." May the approach of the Easter victory bring this calm to all our own hearts! May we somehow find the secret of so presenting Christ in the fullness of his power to bless men that the minds and hearts of the people shall everywhere be turned Godward!

What a day is this in which to be alive! What an hour in which to speak and live in God's behalf! It is fitting that we should all be busy in commending the Christian life to others.

It is right that our Centenary appeal should now be followed with a new and stronger spiritual emphasis. The important thing, however, is not the church roll, but the power of a risen life in Christ, which will find its proper outcome in a larger and stronger church everywhere. Let us to our knees in petition to our divine Lord and Master in perfect confidence of glorious victory.

WILLIAM F. ANDERSON.

## NEED FOR VIGILANCE.

There was never any greater need for the Anti-Saloon League and for all other effective temperance organizations, than at this very present moment. The need will continue to exist for a long time in the future, until the liquor interests become entirely defeated and discouraged and disbanded. They need to continue their efforts to enforce the prohibition law until the morbid appetite for alcoholic poison is eliminated. A few more years will see a great change for the better. Avarice and appetite will both be largely overcome. Until that time there must be unremitting watchfulness.

Whisky lawyers are anxious to continue their feasting. As long as they can excite hope in the covetous breasts of these avaricious and rapacious liquor makers and sellers they will draw their fees and tell them of the good prospects for breaking down prohibition. These whisky lawyers are shrewd and smart. They will ring the changes on questions of constitutionality, states rights, infringement of personal liberty, referendum, and all the other points which provide any apparent possibility of hope for the success of iniquity. They will continue to draw their fees as long as they can awaken any hope, and it may be some time until the profession of whisky lawyer ceases to be profitable. Until that time there must be increasing watchfulness.—Exchange.

## MOTORAIDS

This coming summer is a good time for many to invest in a motor cycle with a side car attachment. This outfit is very popular and is much cheaper for a man with a limited income, in upkeep, tires and gasoline, than is a regular motor car. It has plenty of room and power too, to take wherever you wish to go, a whole family, mother, father and two children of small size.

Most dealers at present sell motor cycles on the deferred payment plan,

so that many who could not afford a motor car, can indulge in a motor cycle with small payments monthly. For many a workman they save carefare in going to and from work, and when their employment is away from a carline, the motorcycle is invaluable. It is always available and will work all day Sunday just as well as on the other days of the week. The consumption of gasoline is small and no garage expense is needed to stable such a steed. They will travel anywhere and over many roads that a motor car would not attempt, owing to their size.

### A WINDY DAY.

THE wind was blowing hard today, it nearly blew my rags away; it filled my ears with sand and dust, there was a kick to every gust. It lifted off my only tile, and carried it about a mile; to keep it from abducting me, I had to anchor to a tree. With hair and sideboards twisted loose, perhaps I had a good excuse to sin a while as others sinned, and curse the blamed dingedusted wind. But I was tempted much to sing, for winds are harbingers of spring; they come before the gentle rains that bring the verdure to the plains; they are the heralds of the time when roses make the world sublime, and all the air with gladness throbs, and doudads bloom, and thingumbobs. The wild wind pushed me through a fence, it raged as though it had no sense, it dumped me in a muddy pool hard by the village eighth grade school; it split and spoiled my Sunday coat, and wound my skirt around my throat; it hustled me all over town, then took and stood me upside down; and still, until my voice grew hoarse, I loudly blessed its pep and force, for it was proof, and something more, that spring was smiling at the door.

## CHATTER

"You are suffering from brain fog and ennui," announced the specialist. "You should take more interest in your business."

"I would like to," replied the patient. "Then why don't you?" demanded the specialist. "The law won't let me," replied the patient. "I'm a pawnbroker."

In an address to his troops an officer of a Midland yeomanry regiment made a stirring allusion to the medal which were worn by several army veterans in the ranks. One of the yeomen went home in a very thoughtful frame of mind, and next day came on parade with three silver medals pinned in his manly chest. Seeing them glittering in the sunshine, the officer approached the man. "I did not know you had been in the wars," he said.

"No, I ain't," was the reply. "Well, how about the medals?" The yeoman eyed his superior officer contemptuously and then replied:

"Can't they? Aye, but they be! My old cow won 'em all at cattle shows!"

"That scandal in which young Jack Wilder got mixed up has just about ruined his career."

"I don't see why it should be so bad as that."

"You know he can't look people in the face any more, and he was studying to be a dentist."

"I write for the few," declared the amateur poet.

"And a good idea, too," declared his grouchy uncle; "the fewer the better."

## GRAND RELIEF FROM CATARRH.

Mr. McClure says every one can get it just like he did. Three bottles of Drecto fixed him up fine.

Also took the ache out of his rheumatism and banished a severe case of constipation.

"I've found out from my own experience that it is foolish for people to be annoyed any longer by catarrh," said Mr. Charles F. McClure, of 2536 Mt. Pleasant Pike, Hamilton, O.

"I know what it is to hawk and spit and try to clear your nose, throat and head for a couple of hours every morning. I know what it is to have a constant dripping into my throat that keeps me constantly trying to clear it out. I also know what heavy breathing and unsound sleep catarrh causes, and the head noises too."

"But I also know after trying lots of remedies what will go right to the seat of the trouble and overcome these annoying symptoms. Drecto will do it. Drecto did it for me, and it's foolish for people to suffer like this when this grand medicine is within the reach of everyone."

"Drecto also eased a bad case of aching rheumatic joints; got my bowels to acting regular every day, whereas before I used to be severely constipated. This is great medicine and I strongly advise sufferers to give it a trial."

The only way to get rid of catarrh is through the blood. Drecto is taken up by the blood very quickly; carried to the weakest membranes and restores them to healthy condition. That's the secret of Drecto's power over catarrh.

All good druggists sell Drecto and it is highly recommended in this city by Solon's Drug Store.

## Is It Yours?

This is the Birthday of Maximilian First March 22, 1859.

Maximilian First, called "Roman Emperor," ruled at a time when Germany had absorbed so many countries that she took the name of Roman Empire. He was one of the greatest conquerors of history and, through a series of fortunate marriages for his family and several well planned campaigns, he managed to bring a great part of Rome under his sway. In fact, it was believed that Maximilian wished to emulate the great Alexander and conquer the world, but the death of his son, discouraged him and started him on a series of misfortunes which eventually led to his death.

Maximilian was born in Vienna in 1859, and married at 18, inheriting Burgundy and the Netherlands with his wife and being obliged to start a war with France at about the same time. He married his son Philip, who was called Philip the Fair, to Jane the Foolish—who brought as a dowry Spain, and her many possessions in the New World, and a part of Italy. Maximilian already controlled the middle of Europe. Maximilian was a well built man, a skillful fighter, a good politician and a daring huntsman. He was also a writer, but his writings show the most inordinate vanity. He died in 1919, at the beginning of the Reformation Period.

## TWENTY YEARS AGO

The proposed new Greene County Court House will be voted upon at the regular April election. There is a great need for more dwellings in Xenia. It is said there is not a vacant house for rent in the city, and in some cases people have

been looking for houses for months. There ought to be a hundred new dwellings built in Xenia this summer.

The Hanning boys, who are located down at Bisbee, Arizona, are said to have good prospects in a gold mine in which they own one-tenth interest. Free gold has been found in that section for some time.

Mr. Heller, superintendent of the Rapid Transit Company, said this morning that so far as he knew no agreement had been reached between officials of that road and the D. & X. to raise the fare to the old figures.

## WILHELM IS ANNOYED

Anerongen, Holland, March 22.—The constant pacing of the sentinels behind former Emperor William when he walks in the Bentinck Castle garden has so annoyed the one-time German ruler that on several occasions he has told the guard not to follow him so closely, but to stay out of his sight.

## COLOR NEVER GREEN.

Cincinnati.—It was on St. Patrick's Day that James Patrick O'Hara, entering the marine recruiting office here, offered to enlist. But O'Hara, couldn't tell green from brown, so he was rejected.

## SHERIFF PREVENTS.

Bucyrus.—There was to have been a chicken main at a point midway between Galion and Bucyrus at summer resort, but Sheriff Ed. Knappenberger, and posse camped at the spot and prevented its taking place.

## SENDS INTEREST TOO.

Canton.—Twenty years ago, Frank J. Ballard of 824 Fulton Road, loaned \$2.50 to a man on a train enroute to Cincinnati. A few days ago he received a money order for \$3.50 in a letter mailed at Dayton, Ky. The writer sent an extra dollar for the accommodation.

## SO FAR AS THE UNITED STATES SENATE IS CONCERNED, THE DEAD OF THIS WAR HAVE DIED IN VAIN.

We just wonder now whether all this time a gentleman by the name of Woodrow Wilson has been playing the sharpest kind of politics in holding his bodyguard in the Senate against the adoption of the Versailles Treaty with reservations, so as to force it as an issue into the Presidential campaign, on the ground that it should have been adopted without reservations.

Because three-fourths of the people of this country, and all the balance of the world, wanted the Treaty adopted, it is going to make an ugly issue in the campaign for the democracy to be in favor of the Treaty and the Republicans against it. At this distance from the election, we don't like the looks of the thing.

So many men, so much wiser than we, were of the opinion that the Treaty should have been adopted, with or without reservations, that we know public opinion is in that line, and public opinion is the arbiter at the polls nine times in ten.

We sent our dear boys to fight, bleed and die for a great cause—we won a great victory and the world seemed entering upon a new and brighter phase of life—then came the clinching of the long drawn struggle, a momentous struggle to wipe out war forever—and behold the greatest nation on earth refuses to stand to its guns in the battle—cowardly retreats. Can the situation be described any less humiliatingly?

Ex-President Taft and William Jennings Bryan stand as samples of hundreds of very able men who have pleaded for a year for the adoption of the Treaty. They believed it the greatest world movement ever undertaken. Refusing to look backward at the conflicts of the ages, they had the inspiration of a God-given faith to look forward to the time when men would beat their swords into plowshares and their spears into pruning hooks.

Under christian influences and law millions of men live in peace—why may not nations do the same? They could, were it not for a few designing ones of bad spirit who embroil others and stir up strife. But people are all the time getting wiser—they are getting the Americanization spirit—they are learning of us. The only trouble with us is our too liberal immigration laws.

Back a third of a century ago Horace Greeley's New York Tribune echoed true to the feelings of millions of northerners, and later in our own Whitelaw Reid's day it kept the faith splendidly, and is still unswerving in its Americanism. Here is what it thinks of this latest of solid-south statesmanship:

"The treaty's defeat is a tragedy whose poignancy is intensified by the sordidness of the final scene. The country beholds the president wrecking a great undertaking for no better reason than because he was not allowed to ignore the constitution. The whole country beholds him assisted by a group of senators who became infested with his narrowness and were thus unable to lift themselves to levels of statesmanship."

## GREETINGS FROM BISHOP ANDERSON TO THE METHODIST PASTORS AND CHURCHES OF THE CINCINNATI AREA:

It is an unspeakable joy to be back again in God's country. It is a privilege more precious than gold to be permitted to meet the need of a day like this with the gospel of a risen, glorified, and triumphant Lord. Verily there are many who cry "Peace, peace, when there is no peace."

It is right that our Centenary appeal should now be followed calm confidence and perfect poise of that "peace of God which passeth all understanding." May the approach of the Easter victory bring this calm to all our own hearts! May we somehow find the secret of so presenting Christ in the fullness of his power to bless men that the minds and hearts of the people shall everywhere be turned Godward!

What a day is this in which to be alive! What an hour in which to speak and live in God's behalf! It is fitting that we should all be busy in commending the Christian life to others.

It is right that our Centenary appeal should now be followed with a new and stronger spiritual emphasis. The important thing, however, is not the church roll, but the power of a risen life in Christ, which will find its proper outcome in a larger and stronger church everywhere. Let us to our knees in petition to our divine Lord and Master in perfect confidence of glorious victory.

WILLIAM F. ANDERSON.

## NEED FOR VIGILANCE.

There was never any greater need for the Anti-Saloon League and for all other effective temperance organizations, than at this very present moment. The need will continue to exist for a long time in the future, until the liquor interests become entirely defeated and discouraged and disbanded. They need to continue their efforts to enforce the prohibition law until the morbid appetite for alcoholic poison is eliminated. A few more years will see a great change for the better. Avarice and appetite will both be largely overcome. Until that time there must be unremitting watchfulness.

Whisky lawyers are anxious to continue their feasting. As long as they can excite hope in the covetous breasts of these avaricious and rapacious liquor makers and sellers they will draw their fees and tell them of the good prospects for breaking down prohibition. These whisky lawyers are shrewd and smart. They will ring the changes on questions of constitutionality, states rights, infringement of personal liberty, referendum, and all the other points which provide any apparent possibility of hope for the success of iniquity. They will continue to draw their fees as long as they can awaken any hope, and it may be some time until the profession of whisky lawyer ceases to be profitable. Until that time there must be increasing watchfulness.—Exchange.

## MOTORAIDS

This coming summer is a good time for many to invest in a motor cycle with a side car attachment. This outfit is very popular and is much cheaper for a man with a limited income, in upkeep, tires and gasoline, than is a regular motor car. It has plenty of room and power too, to take wherever you wish to go, a whole family, mother, father and two children of small size.

Most dealers at present sell motor-cycles on the deferred payment plan,

so that many who could not afford a motor car, can indulge in a motor-cycle with small payments monthly. For many a workman they save care in going to and from work, and when their employment is away from a carline, the motorcycle is invaluable. It is always available and will work all day-Sunday just as well as on the other days of the week. The consumption of gasoline is small and no garage expense is needed to stable such a steed. They will travel anywhere and over many roads that a motor car would not attempt, owing to their size.

### A WINDY DAY.

THE wind was blowing hard today, it nearly blew my rags away; it filled my ears with sand and dust, there was a kick to every gust. It lifted off my only tie, and carried it about a mile; to keep it from abducting me, I had to anchor to a tree. With hair and sideboards twisted loose, perhaps I had a good excuse to sin a while as others sinned, and curse the blamed dingbusted wind. But I was tempted much to sing, for winds are harbingers of spring; they come before the gentle rains that bring the verdure to the plains; they are the heralds of the time when roses make the world sublime, and all the air with gladness throbs, and daisies bloom, and thimbles. The wild wind pushed me through a fence, it raged as though it had no sense, it dumped me in a muddy pool hard by the village eighth grade school; it split and spoiled my Sunday coat, and wound my skirt around my throat; it hustled me all over town, then took and stood me upside down; and still, until my voice grew hoarse, I loudly blessed its pep and force, for it was proof, and something more, that spring was smiling at the door.

## CHATTER

"You are suffering from brain fog and ennui," announced the specialist. "You should take more interest in your business."

"I would like to," replied the patient. "Then why don't you?" demanded the specialist. "The law won't let me," replied the patient. "I'm a pawnbroker."

In an address to his troops an officer of a Midland yeomanry regiment made a stirring allusion to the medal which were worn by several army veterans in the ranks. One of the yeomen went home in a very thoughtful frame of mind, and next day came on parade with three silver medals pinned in his manly chest. Seeing them glittering in the sunshine, the officer approached the man. "I did not know you had been in the wars," he said.

"No, I ain't," was the reply. "Well, how about the medals?" The yeoman eyed his superior officer contemptuously and then replied: "Can't they? Aye, but they be! My old cow won 'em all at cattle shows!"

"That scandal in which young Jack Wilder got mixed up has just about ruined his career."

"I don't see why it should be so bad as that."

"You know he can't look people in the face any more, and he was studying to be a dentist."

"I write for the few," declared the amateur poet.

"And a good idea, too," declared his grouchy uncle; "the fewer the better."

## GRAND RELIEF FROM CATARRH.

Mr. McClure says every one can get it just like he did. Three bottles of Drecto fixed him up fine.

Also took the ache out of his rheumatism and banished a severe case of constipation.

"I've found out from my own experience that it is foolish for people to be annoyed any longer by catarrh," said Mr. Charles F. McClure, of 2536 Mt. Pleasant Pike, Hamilton, O.

"I know what it is to hawk and spit and try to clear your nose, throat and head for a couple of hours every morning. I know what it is to have a constant dripping into my throat that keeps me constantly trying to clear it out. I also know what heavy breathing and unsound sleep catarrh causes, and the head noises too."

"But I also know after trying lots of remedies, what will go right to the seat of the trouble and overcome these annoying symptoms. Drecto will do it. Drecto did it for me, and it's foolish for people to suffer like this when this grand medicine is within the reach of everyone."

"Drecto also eased a bad case of aching rheumatic joints; got my bowels to acting regular every day, whereas before I used to be severely constipated. This is great medicine and I strongly advise sufferers to give it a trial."

The only way to get rid of catarrh is through the blood. Drecto is taken up by the blood very quickly; carried to the weakened membranes and restores them to healthy condition. That's the secret of Drecto's power over catarrh.

All good druggists sell Drecto and it is highly recommended in this city by Sloan's Drug Store.

## Is It Yours?

This is the Birthday of Maximilian First March 22, 1459.

Maximilian First, called "Roman Emperor," ruled at a time when Germany had absorbed so many countries that she took the name of Roman Empire. He was one of the greatest conquerors of history and, through a series of fortunate marriages for his family and several well planned campaigns, he managed to bring a great part of Rome under his sway. In fact, it was believed that Maximilian wished to emulate the great Alexander and conquer the world, but the death of his son, discouraged him and started him on a series of misfortunes which eventually led to his death.

Maximilian was born in Vienna in 1459, and married at 18, inheriting Burgundy and the Netherlands with his wife and being obliged to start a war with France at about the same time. He married his son Philip, who was called Philip the Fair, to Jane the Polish—who brought as a dowry Spain, and her many possessions in the New World, and a part of Italy. Maximilian already controlled the middle of Europe.

Maximilian was a well built man, a skillful fighter, a good politician and a daring huntsman. He was also a writer, but his writings show the most inordinate vanity. He died in 1519, at the beginning of the Reformation Period.

# In The REALM of SPORTS LOCAL AND NATIONAL In The Spot-Light

## NEW RULE MADE IN FOOTBALL

Football enthusiasts generally are commending the one drastic new rule effected in College football by the recent session of the rules committee.

The rule provides that the team scoring the touchdown may kick the ensuing goal from a point directly in front of the goal posts, instead of booting the oval from a difficult angle twenty yards out, or relying on the dangerous kick out.

The new rule also prevents two field goals from tying a score made by one touchdown followed by a failure to negotiate the goal kick.

## DAYTON MARCOS TO BEGIN SEASON

Jim Taylor, one of the famous Taylor brothers, will manage the Dayton Marcos, the fast colored team of the Gem City, who will battle with some of the best in the country in the National Colored Baseball League this summer.

Owner Matthews of the Marcos has already signed Ross Bailey from Texas, Jess Smith who played with Chappies, Wilson of Roanoke, Va., McNeal and Scott of New Orleans, and Mitchell of Jacksonville, while George Brown, Johnny Cunningham, Coke Alexander of last year's team will be with the Marcos again. The new men will report for training March 27. The Marcos will play their first exhibition game April 4. The league opens May 1.

## UNIFORM SEEDING DATE WILL SAVE MUCH LOCAL WHEAT

A uniform seeding date of October 1, will save thousands of bushels of wheat for Greene county, next year, in the opinion of County Agent Ford S. Prince and other experts.

This opinion is given as the result of the Hessian fly campaign in the county which was held last week. T. H. Parks, entomologist from the State experimental station, assisted Mr. Prince in the campaign. Nine meetings were held in various parts of the county, which were attended by about 150 farmers.

The investigations disclosed that wheat seeded prior to September 28, last year, was seriously infested by fly. That sown after September 28, and before October 1 was slightly damaged, and that sown October 1, was entirely free from the insect.

The wheat sown before September 28, was found to be generally so badly damaged by the fly that it will have to be plowed under and re-seeded for another crop. Mr. Prince says that the fly is now in the "flax seed" or chrysalis stage, from which it will emerge around the tenth or fifteenth of April, according to the weather conditions. The adult fly will do its damage the latter part of April and first of May, in whatever wheat or barley is available. It is then eating, and will lay its eggs, the brood hatching late in September. The eggs remain in the wheat stubble all summer.

Mr. Prince says that there will be a big crop of the fly this year. The insect, emerging from the flax seed in the infested fields, will settle on other fields, infesting practically all the wheat by harvest time. A uniform seeding date, the county agent says, is the only way to free the county of the ravages of the fly.

Mr. Horn, is the present superintendent of the Work House, and was superintendent of the factory itself, until his appointment as head of the penal department a few years ago. Miss Santmyer has served as deputy clerk of the courts since the death of Charles A. Davis, whom she succeeded to that position, and Mr. Johnson decided that there should be no change made in the office.

Mr. Johnson, who qualified for the office, Saturday, took charge of the clerkship Monday morning.

## RADICALS WANT TO BECOME A. L. SUPPORTERS

Indianapolis, Ind., March 22.—The fact that radicals are trying to obtain membership in the American Legion, was asserted last night by Arthur Woods, chairman of the National Americanism Commission of the Legion.

Mr. Woods said he had been informed that the "reds" are seeking enrollment in the Legion in an effort to learn what action the former service men's organization is taking against them and their policies.

"No real harm, however, can be done to the Legion or its work of promoting Americanism by the presence in its membership of such persons," declared Mr. Woods. "We are working to promote public welfare and good citizenship and the more they find out about this work the better. It will do them good."

## The Cold That Hangs On

This is No. 5 of a series of advertisements, prepared by a competent physician, explaining how certain diseases which attack the air passages—such as Pneumonia, Influenza, Whooping Cough, Measles or even a long continued Cold—often leave these organs in an inflamed, congested state, thus affording a favorable foothold for invading germs. And how Vick's Vapo-Rub may be of value in this condition.

A cold is simply an inflammation of some part of the air passages—throat, larynx or bronchial tubes—just like a sore is an inflammation of the skin. A long continued cold means constant inflammation and this constant inflammation frequently weakens the air passages so that they become an easy point of attack for invading germs of more serious diseases. A "cold that hangs on," therefore, is simply nature's "red flag" indicating that there is "trouble below," and this warning should never be neglected.

Nightly applications of Vick's VapoRub will aid nature to clear up that inflammation. Because Vicks acts locally by stimulation thru the skin to draw out the inflammation, attract the blood away from the congested spots

and relieve the cough. In addition, the medicinal ingredients of Vicks are vaporized by the body heat. These vapors are breathed in all night long, thus bringing the medication to bear directly upon the inflamed areas.

Vicks should be rubbed in over the throat and chest until the skin is red—then spread on thickly and covered with hot flannel cloths. Leave the clothing loose around the neck and the bed clothes arranged in the form of a funnel so the vapors arising may be freely inhaled. If the cough is annoying, swallow a small bit of Vicks the size of a pea.

### NEW RULE MADE IN FOOTBALL

Football enthusiasts generally are commending the one drastic new rule effected in College football by the recent session of the rules committee.

The rule provides that the team scoring the touchdown may kick the ensuing goal from a point directly in front of the goal posts, instead of booting the oval from a difficult angle twenty yards out, or relying on the dangerous kick out.

The new rule also prevents two field goals from tying a score made by one touchdown followed by a failure to negotiate the goal kick.

### DAYTON MARCOS TO BEGIN SEASON

Jim Taylor, one of the famous Taylor brothers, will manage the Dayton Marcos, the fast colored team of the Gem City, who will battle with some of the best in the country in the National Colored Baseball League this summer.

Owner Matthews of the Marcos has already signed Ross Bailey from Texas, Jess Smith who played with Chappies, Wilson of Roanoke, Va., McNeal and Scott of New Orleans, and Mitchell of Jacksonville, while George Brown, Johnny Cunningham, Coke Alexander of last year's team will be with the Marcos again. The new men will report for training March 27. The Marcos will play their first exhibition game April 4. The league opens May 1.

### UNIFORM SEEDING DATE WILL SAVE MUCH LOCAL WHEAT

A uniform seeding date of October 1, will save thousands of bushels of wheat for Greene county, next year, in the opinion of County Agent Ford S. Prince and other experts.

This opinion is given as the result of the Hessian fly campaign in the county which was held last week. T. H. Parks, entomologist from the State experimental station, assisted Mr. Prince in the campaign. Nine meetings were held in various parts of the county, which were attended by about 150 farmers.

The investigations disclosed that wheat seeded prior to September 28, last year, was seriously infested by fly. That sown after September 28, and before October 1 was slightly damaged, and that sown October 1, was entirely free from the insect.

The wheat sown before September 28, was found to be generally so badly damaged by the fly that it will have to be plowed under and re-seeded for another crop. Mr. Prince says that the fly is now in the "flax seed" or chrysalis stage, from which it will emerge around the tenth or fifteenth of April, according to the weather conditions. The adult fly will do its damage the latter part of April and first of May, in whatever wheat or barley is available. It is then eating, and will lay its eggs, the brood hatching late in September. The eggs remain in the wheat stubble all summer.

Mr. Prince says that there will be a big crop of the fly this year. The insect, emerging from the flax seed in the infested fields, will settle on other fields, infesting practically all the wheat by harvest time. A uniform seeding date, the county agent says, in the only way to free the county of the ravages of the fly.

Indianapolis, Ind., March 22.—The fact that radicals are trying to obtain membership in the American Legion, was asserted last night by Arthur Woods, chairman of the National Americanism Commission of the Legion.

## HAIR TONICS.

There are two seasons in the year when every woman will notice falling hair. In the Spring the hair will come out somewhat and in the fall a good deal will drop off. This is not to be taken as a bad sign unless drastic devices and quantities of split ends.

However, a hair tonic is almost necessary at these two periods of the year, and particularly in the Spring. The winter is usually rather hard on hair because most women wear heavy hats and there is but little opportunity for the hair to get the sunlight and the fresh air that is absolutely vital to its health and beauty.

Cantharides Hair Tonic.  
Tincture of Cantharides (alcoholic) 1 ounce.  
Spirits of Rosemary 1 1/2 ounces.  
Glycerine 1 1/2 ounces.  
Aromatic Vinegar 1 1/2 ounces.  
Rose water 3 ounces.

These ingredients may be purchased from any druggist and the mixture is ready for use after they have been well shaken together in a bottle. A little should be applied to the roots of the hair three times a week. The best method of applying it, of course, is to make partings in the hair, and to rub the tonic along each parting. If very much gets over the hair, it is apt to make it sticky.

This tonic is specifically for oily hair. If the hair is very dry, use only half an ounce of glycerine and four ounces of rose water instead of three. If the hair is neither too dry nor too oily, this same variation of the tonic should be used, and the scalp should be rubbed with oil before and after the shampoo.

Questions and Answers.  
E. H.—White spots on the nails are supposed to be caused by bruises.

Use a good hair tonic occasionally. Yeast cakes will not make you grow, but will purify the blood. Henna shampoo will brighten your hair without actually changing its color.

Dear Mrs. Thompson: I am a girl sixteen years old and am in my second year in high school.

I live in a small town and do not have any boy friends because I devote all of my spare time to my lessons, because the class of boys that live here do not appeal to me. My man of dreams has always been something above the average. I know that I should not be so particular, but I have always hoped to be worthy of a true man's love.

My mother does not agree with me on any subject—it matters not what it may be and she says I am proud. I read and study books that I think will help me to always be my better self. I believe in girls having boy friends if they are the right kind.

Should I go places with the boys in my town or wait until I have finished school and go where I will be with a higher class of boys?

A SCHOOL GIRL.  
The purpose of life is happiness. If you are cold and selfish and refuse to see the charm of the small town people around you, you are cheating yourself out of much that would bring you pleasure and benefit. Your "man of dreams," if he is normal, will love the woman he marries for her loving heart and sympathy, as well as her intellect.

Do not think that your mother is always wrong. She has had years of experience and doubtless is a better judge of values than you are. In one thing, at least, she is right—you do need the companionship of young people. Pride is not a virtue when it makes one feel better than one's neighbor.

Your ambition to study and improve your mind is splendid. Keep up your interest in books and broaden your interest in people, and you yourself can hope to be above the average woman.

At the age of sixteen you are too young to go places at night with boys. There is no reason why boys should not be your friends.

Dear Mrs. Thompson: I am in love with a married lady and I have got to have her for a wife. I will be good to her and her husband is not. I can't live without her. She cares as much for me as I do her.

I go to see her often and she is so nice to me. We don't know how to get her a divorce. How long will it take?

ALWAYS WATCHING.  
If the woman's husband is cruel to her, she should state her case to the judge of the probate court and get his advice about securing a divorce. But if her husband tries to be good and does not know she has ceased to care for him, she should tell him frankly that she loves another man and ask him to release her.

The time it will take to secure the divorce will depend upon the number in court awaiting a hearing. Very often the divorce courts are so crowded that it takes over a year.

Dear Mrs. Thompson: If you should meet a bride of a few weeks on the street, what should you say to her? Is it proper to congratulate her?

Is it possible to take a college or a high school course through a correspondence school?

LONESOME SUE.  
The bride should be wished happiness and the groom congratulated. It is not correct to congratulate the bride.

A correspondence school gives a degree of its own. As much knowledge can be acquired, as the average student gets at high school or college, through a correspondence school if the pupil is an apt scholar and takes the course seriously. Most people haven't the will-power to work conscientiously unless spurred on by competition of the classroom.

## BOLIVIA EXPRESSES REGRET FOR RECENT UNPLEASANTNESS

Buenos Aires, March 22.—The Bolivian Charge d'Affaires in Lima has visited Chancellor Porras and expressed in the name of his government regret for the manifestations against Peruvians in Bolivia, according to a dispatch to LaNacion from Lima.

The Charge stated that the Bolivian Government would punish the authors of the demonstrations. Chancellor Porras, the dispatch adds, convened the Chamber of Deputies to notify it that satisfaction had been given by Bolivia.

A dispatch from LaPaz says that the President of Bolivia also has expressed his regrets to the Peruvian legation there for the attacks on Peruvians.

Santiago advices attribute to Peru the initiative for intervention by the United States in the controversy between Peru and Bolivia. A dispatch to La Prensa refers to a note sent by Chancellor Porras to the United States Government, in which he is alleged to have said that Chile was urging Bolivia to extreme measures.

The dispatch adds: "Accordingly, it appears that the North American Government has taken seriously the communication of Chancellor Porras since American Ambassador Shea has conferred with the Chilean Minister of Foreign Relations."

It is reported that Ambassador Shea presented to the Foreign Minister the text of Chancellor Porras' message to the United States and the Minister denied the truth of its contents.

Under these laws women who purchase these feathers or who wear them are liable to the same punishment as the milliner. Mr. Stauber has said that warning warning would be issued to the women through the newspapers before action would be taken against them, but that both the federal and state authorities are determined to enforce the law.

In order to obtain the plumage, which is at its best during the nesting time, the mother birds are killed and thousands of little birds are left to starve each year. The Sidney Company convicted and fined was the Willis, Piper & Son dry goods and millinery firm. Upon the promise of the firm to observe the law, \$100 of the fine was remitted.

ADDRESS CHILD WELFARE COMMITTEE

It is to the interest of the community to preserve the home, by seeing that the family is kept together, and that the mother, in so far as possible, is able to take care of her children in her home, said the Rev. Charles E. Bennett, pastor of the First Methodist Episcopal church, in addressing the county Child Welfare Committee, in the assembly room of the court house Saturday afternoon.

Judge J. C. Marshall, judge of the probate and juvenile courts, who has the task of adjusting more domestic relations than any other person in the county, followed Rev. Bennett, speaking of the work which his court performs. The present limitations of the mothers' pension fund in the county, Judge Marshall, set forth, prevent the work for mothers being carried on as he would like to have it done.

Five township outside Xenia were represented at the meeting, which was presided over by Miss Bertha Trebein, chairman of the Child Welfare work of the county. Plans were discussed for continuing the work, and provisions made for committees.

The report of the child survey of the county will be completed and published later.

## DAYTON MILLINERS MAY BE INDICTED

The campaign being conducted by the state fish and game department against the illegal possession or use of the plumage of birds of paradise, herons, egrets and gora, has now reached Dayton, where affidavits are being prepared on evidence collected which will be filled in Dayton courts this week.

J. W. Stuber, representative of the state department, who is now in this city, though his address at the annual meeting of the Greene County Fish and Game Protective Association is Dayton, has announced that four or five prominent milliners will be cited in the first batch of affidavits.

The arrests are part of a state wide campaign being conducted by the state and fish and game department, which has already resulted in a number of arrests in Columbus and other cities, and the fining of a leading milliner of Sidney, Ohio, \$200 and costs on the charge.

By reason of a treaty entered into between the United States, England and Canada, a federal law was enacted making it a serious offense to wear plumage of the bird of paradise, heron, egret or gora. An Ohio law is to the same effect, although the penalty is not so severe.

Under these laws women who purchase these feathers or who wear them are liable to the same punishment as the milliner. Mr. Stauber has said that warning warning would be issued to the women through the newspapers before action would be taken against them, but that both the federal and state authorities are determined to enforce the law.

In order to obtain the plumage, which is at its best during the nesting time, the mother birds are killed and thousands of little birds are left to starve each year. The Sidney Company convicted and fined was the Willis, Piper & Son dry goods and millinery firm. Upon the promise of the firm to observe the law, \$100 of the fine was remitted.

## ILLINOIS MAN FEELS MANY YEARS YOUNGER

Was In Such Poor Health he Had Almost Decided to Retire From Business When He Began Taking Tanlac.

"I feel thirty years younger since I got hold of Tanlac and it was necessary I could handle a shovel and turn as much dirt as any of my men," said Charles Stenstrom, the well-known concrete and excavating contractor, living at 607 Fishgate Street, Peoria, Ill.

"For thirty years I have suffered all the misery that goes with stomach trouble, rheumatism, and disordered kidneys, and when I began taking Tanlac I was so bad off I was about to retire from business.

"My stomach was so badly upset that it nearly laid me up altogether and after every meal I took cramping spells that sometimes were so bad I couldn't leave the house for I was afraid I could not get back. I bloated up so with gas that I could not get a long breath. My legs pained me almost every minute of the day and when the weather was damp my arms hurt me so much it was agony for me to bend them. My kidneys were so badly out of order that I had pains all through my back and at night I was in such misery I could hardly sleep at all. Every morning my back was so stiff it was hard for me to get out of bed and during the day I couldn't think of doing my work.

"Things are different now as Tanlac has made a wonderful change in my condition. Everything I eat agrees with me perfectly. The rheumatism has almost disappeared and the pains and stiffness in my back have all gone. I sleep sound every night and I get up in the mornings feeling fine and ready for breakfast. I have given up all idea of retiring from business, as Tanlac has given me new life and strength and I am now enjoying better health than I have for many years."

# BEAUTY CHATS

There are two seasons in the hair when every woman will notice falling hair. In the Spring the hair will come out somewhat and in the fall after a good deal will drop off. This is not to be taken as a bad sign unless dandruff develops and quantities of split ends.

However, a hair tonic is almost necessary at these two periods of the year, and particularly in the Spring. The winter is usually rather hard on hair because most women wear heavy hats and there is but little opportunity for the hair to get the sunlight and the fresh air that is absolutely vital to its health and beauty.

**Cantharides Hair Tonic.**  
Tincture of Cantharides (alcoholic) 1 ounce.  
Spirits of Rosemary 1 1-2 ounces.  
Glycerine 1 1-2 ounces.  
Aromatic Vinegar 1 1-2 ounces.  
Rose water 3 ounces.  
These ingredients may be purchased from any druggist and the mixture is ready for use after they have been well shaken together in a bottle. A little should be applied to the roots of the hair three times a week. The best method of applying it, of course, is to make partings in the hair, and to rub the tonic along each parting. If very much gets over the hair, it is apt to make it sticky.

This tonic is specifically for oily hair. If the hair is very dry, use only half an ounce of glycerine and four ounces of rose water instead of three. If the hair is neither too dry nor too oily, this same variation of the tonic should be used, and the

Use a good hair tonic occasionally. Yeast cakes will not make you grow, but will purify the blood. Henna shampoo will brighten your hair without actually changing its color.

## Heart and Home Problems

Dear Mrs. Thompson: I am a girl sixteen years old and am in my second year in high school.  
I live in a small town and do not have any boy friends because I devote all of my spare time to my lessons, because the class of boys that live here do not appeal to me. My man of dreams has always been something above the average. I know that I should not be so particular, but I have always hoped to be worthy of a true man's love.  
My mother does not agree with me on any subject—it matters not what it may be and she says I am proud. I read and study books that I think will help me to always be my better self. I believe in girls having boy friends if they are the right kind.  
Should I go places with the boys in my town or wait until I have finished school and go where I will be with a higher class of boys?

A SCHOOL GIRL.  
The purpose of life is happiness. If you are cold and selfish and refuse to see the charm of the small town people around you, you are cheating yourself out of much that would bring you pleasure and benefit. Your "man of dreams," if he is normal, will love the woman he marries for her loving heart and sympathy, as well as her intellect.  
Do not think that your mother is always wrong. She has had years of experience and doubtless is a better judge of values than you are. In one thing, at least, she is right—you do need the companionship of young people. Pride is not a virtue when it makes one feel better than one's neighbor.  
Your ambition to study and improve your mind is splendid. Keep up your interest in books and broaden your interest in people, and you yourself can hope to be above the average woman.  
At the age of sixteen you are too

The occasion was the annual meeting of the society, and Mrs. Marshall was assisted in entertaining by members of the committee. Sweet peas and carnations made attractive the rooms, where forty women spent a very enjoyable afternoon.  
The annual business meeting and election of officers was held. Mrs. R. H. Nash was reelected president; Mrs. J. C. Marshall, vice president; Mrs. F. J. H. Schell, secretary, and Mrs. Winters, treasurer. After the election, Mrs. A. S. Frazer presented to Mrs. Nash, as a birthday gift from the society, an apron and a pot of blooming primroses. Mrs. Nash was surprised and greatly pleased at the remembrance, and expressed her thanks for the gift.  
During the social hour which followed, Mrs. Clarence Frazer pleased the women with a reading. Mrs. J. M. Carper suggested as a means of making more money for the society, that the members make a quilt. She volunteered to furnish the squares. The quilt will be finished and sold by the society.  
Hot chocolate and cakes were served.

## RINGGOLD, GEORGIA MAN WRITES

A thankful letter about the benefits received from using Sulphur Tablets. Its effects are like grandmother's remedy of sulphur, cream of tartar and molasses. But this consists of sulphur, cream of tartar and herbs, in a sugar-coated tablet, easy and pleasant to use, for bad blood, stomach, liver and bowel disorders.  
Mr. John M. Plemons, Ringgold, Georgia, writes: "I had an awful bad case of stomach trouble and constipation, and had the service of a specialist with only temporary relief. I saw an advertisement of Sulphur Tablets and began using them, and in a short time noted very good results, and I further used them, and at this time am perfectly well as far as I can tell. I don't recommend anything unless I receive some good results. Some friends use them and they also not good results, etc." Druggists sell Sulphur Tablets everywhere. Don't take ordinary "sulphur" tablets and be disappointed.

# ILLINOIS MAN FEELS MANY YEARS YOUNGER

Was In Such Poor Health he Had Almost Decided to Retire From Business When He Began Taking Tanlac.

CHARLES STENSTROM Well-Known Peoria, Ill., Contractor

"I feel thirty years younger since I got hold of Tanlac and it was necessary I could handle a shovel and turn as much dirt as any of my men," said Charles Stenstrom, the well-known concrete and excavating contractor, living at 607 Fishgate Street, Peoria, Ill.  
"For thirty years I have suffered all the misery that goes with stomach trouble, rheumatism, and disordered kidneys, and when I began taking Tanlac I was so bad off I was about to retire from business.  
"My stomach was so badly upset that it nearly laid me up altogether and after every meal I took cramping spells that sometimes were so bad I couldn't leave the house for I was afraid I could not get back. I bloated up so with gas that I could not get a long breath. My legs pained me almost every minute of the day and when the weather was damp my arms hurt me so much it was agony for me to bend them. My kidneys were so badly out of order that I had pains all through my back and at night I was in such misery I could hardly sleep at all. Every morning my back was so stiff it was hard for me to get out of bed and during the day I couldn't think of doing my work.  
"Things are different now as Tanlac has made a wonderful change in my condition. Everything I eat agrees with me perfectly. The rheu-

matism has almost disappeared and the pains and stiffness in my back have all gone. I sleep sound every night and I get up in the mornings feeling fine and ready for breakfast. I have given up all idea of retiring from business, as Tanlac has given me new life and strength and I am now enjoying better health than I have for many years."  
Tanalac is sold in Xenia by Sayre & Hemphill.

### WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Four three-quarters of an ounce of Mentholized Arctine in a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and sniff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arctine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

TREND AWAY FROM OLD RELIGIONS SAYS PASTOR IN XENIA

There is a general trend toward wordliness, a turning away from God, to the struggle after wealth and power, declared Dr. J. H. Apple, of Philadelphia, who spoke at the morning service at the First Reformed church, Sunday.

The family altar is no more, said Dr. Apple, expressing regret that in low homes of the country are the parents and children found gathered together in evening worship as in the former days.

Dr. Apple is connected with the Forward Movement of the Reformed church, and has been granted a year's leave of absence from his work as president of the Women's College at Frederick, Md., in order that he may devote all his time to the new labor. He spoke at length regarding the forward movement in the church.

A large congregation heard Dr. Apple, who is well known here as the husband of a former Xenia girl, Miss Harnor.

WORKS HARD TO AVERT FLU EPIDEMIC

Government and City Health Officials Warn People to Keep Clean.

Stay Away from People with Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and sooth and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

### TREND AWAY FROM OLD RELIGIONS SAYS PASTOR IN XENIA

There is a general trend toward wordiness, a turning away from God, to the struggle after wealth and power, declared Dr. J. H. Apple, of Philadelphia, who spoke at the morning service at the First Reformed church, Sunday.

The family altar is no more, said

DON'T SPOIL YOUR CLOTHES

This is Social Service League week. Men and women will call upon Xenia residents between now and the first of April, to secure memberships in the League, or your contribution to the fund.

No goal has been set in the annual financial campaign, but League workers hope to obtain, if not the \$1 membership dues, a contribution from the majority of Xenia people to aid in the work which the League is doing in Xenia.

The business section of the city will be canvassed by Herbert Davis and C. L. Jobe, who will start their work Tuesday.

Mrs. Jesse Johnson is chairman of the women workers who will canvass the residence and outlying districts of the city.

## PROF. JOINER NOT REMOVED, RESIGNED

The Gazette and Republican wish to correct an error which appeared in the last issue of these papers, concerning the status of Professor William A. Joiner, head of the Combined Normal and Industrial Department of Wilberforce.

The Gazette and Republican stated that Professor Joiner had been removed by the board of trustees at their meeting Friday evening. This information was received from W. S. Scarborough, president of the institution. As a matter of fact while a motion had been passed early in the session taking this action, it was later expunged from the records, and Professor Joiner's resignation accepted to take effect June 30.

You Feel That Way If Your Blood Is Starved for Red Cells

**PEPTO-MANGAN MAKES RED BLOOD**

Overcomes That Languid Feeling That Cheats You Out of Work and Fun.

You say, "I wish I could go, but I don't feel able." Your friends say, "Are you ill?"

You are not exactly sick, you just feel unable to approach work or play in the old, vigorous spirit.

The high speed at which Americans live sometimes taxes their strength. The blood is weak, lacking in red cells. When this condition exists, Gude's Pepto-Mangan taken three times a day shows quick benefits. Pepto-Mangan is known to physicians as The Red Blood Builder. It increases the supply of rich, healthy blood and in the absence of deep-seated disease this means health and strength for men, or women or children.

Pepto-Mangan is put up in both liquid and tablet form. Both forms are exactly alike in medicinal qualities. When you order Pepto-Mangan, be sure to ask the druggist for "Gude's." And look for the name "Gude's" on the package. If "Gude's" is not there, it is not Pepto-Mangan.

**Creamed Fish**—Make a sauce by creaming two tablespoons of flour and two tablespoons of butter substitute. Add them to one cup of hot milk. Put this in a double boiler, add one-half teaspoon of salt, one-quarter teaspoon of pepper, one-half teaspoon of onion juice, and one bay leaf. Stir until as thick as cream, over the bottom of a baking dish with some cold fish, flaked, and pour over it half the sauce.

Then put in another layer of fish and on that pour the remainder of the sauce. Sprinkle all with crumbs, dot with butter and brown in a moderately hot oven. Any kind of left-over fish may be used.

**Oyster Loaf**—Four slices of bread, one pint of oysters, speck of mace, two bay leaves, one pint of boiling water, two tablespoons of butter substitute, salt and pepper to taste, one tablespoon of cracker crumbs, one and one-half cups of milk.

Scald the oysters in the boiling water, drain. Put the water in a sauce pan with butter and mace, bay leaves, salt and pepper. Let come to

a boil, add cracker crumbs and milk, let come to a boil, then add the oysters. Cook two minutes more, cut the oysters of each slice of bread, place on a platter, brush each piece with melted butter substitute, put in quick oven to brown, fill with creamed oyster, and serve.

**Hamburg With Noodles**—For the noodles: Into one egg stir pinch of salt and flour to make a stiff dough. Roll out as thin as possible, allow to dry a short time, roll up and cut fine. Shape one pound hamburger steak into large cake about one inch thick. Brown well on both sides in hot fat. Add one cup well-seasoned tomatoes and one cup of water. Cover and simmer one hour. Add sufficient boiling water to cover, then add the noodles. Continue cooking for twenty minutes.

Serve meat on large platter surrounded by noodles.

#### RECIPES FOR A DAY

**Luncheon Dish**—Take one-half pound hamburger steak, season with salt and pepper, shape in a ball and place in center of a large, deep baking dish. Pare and slice potatoes, arrange in dish layer of potatoes, salt, pepper, butter, flour and then another layer of potato until dish is full, covering meat. Then cover all with milk and water, equal parts. Bake one hour in moderate oven.

**Cabbage Salad**—Select good, firm, small head cabbage, chop finely; then place on lettuce leaves, pouring dressing over same.

**Good Salad Dressing**—Place one cup vinegar in sauce pan on stove; while it is coming to a boil mix one-half cup sugar, one egg, tablespoon flour, teaspoon salt, teaspoon mustard, pinch tumeric, make paste and add to boiling vinegar. When using thin to right consistency with cream or top milk.

## THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

### ADVICE—AND A DECISION

Chapter 83.

"Gerry Meredith, you have got to lose your husband or your job."

Which is it going to be?"

Mary Ryan looked at me seriously. "I mean it, Gerry. Before Robert was married he planned to have a home, you in it. If he had known you would not make a home for him, he would have married Marion Hovey. Everyone."

"You don't understand, Mary. We talked it over, and he said I could keep on working."

"I know all about that—what he said. But he thought you would love him well enough after you were married to do as he wanted. He was always talking about a home when I first knew him, and that wasn't until after you were married."

"But, Mary, he doesn't earn enough to live on."

"He would have—if you hadn't butted in with your salary. It will take him a little longer now to get ahead; but I'll bet my last dollar he'll make good if you will do as I say."

"It's been in my mind to tell you things for a long time, Gerry—to tell you that Robert was changing for the worse. But I guess Marion rubbed it in, so there ain't no need for me to. Robert is affectionate, likes to be made a fuss over, Marion has done it. Don't scowl. If it hadn't been her, it would have been some other woman, and perhaps a worse one. Now will you try some-

thing I have in my mind? If it doesn't work out, why no damage is done. It it does, then it is up to you."

"What is it?" I asked meekly. Mary too, had accused me of being a harmful influence to Robert.

"I have hinted and hinted that nothing would be different unless you got out of that miserable boarding house, and into a place by yourselves. He knows you ain't ever alone when he is out, he hates the place, so he stays out and leaves you. Now Gardner can't very well come and see me like he wants to; it ain't proper, and he won't do anything to compromise me. What I have planned is for us to change off. I'll take your rooms for a month or six weeks—you take my flat. It ain't much, but it's a home. Tell Madame you must have a vacation. She won't dare refuse you. If she does and you want to go back to work, you won't have any trouble getting a job. There ain't many can sell hats like you can."

"But, Mary!"

"Wait. Don't ask Robert a thing about it. Just tell him it is done, that you are tired and need a rest. Then put it up to him to hustle so you can get it. I'll move over tonight. Gardner will help me, and you and Robert can move in."

"I don't see how I can."

"You say you won't give Robert up. It's him Gerry or the job. It's up to you."

"All right, Mary, I'll try it. I'd try anything rather than let Marion

Hovey have him." Then I added: "I know very little about housekeeping and cooking, Mary."

"You got common sense, ain't you? Then there's my cook book. I didn't know ham from beefsteak when I started a home all by my little lonesome. I guess you know as much as I did."

"I'll try it a month."

"I guess that will be long enough to prove that I am right, and that all that ails Robert Meredith is too much boarding house, too little wife, and so no ambition."

That afternoon I told Madame I must have at least a month's vacation, and that I must leave that night.

"But Gerry! I can't let you go on such short notice."

"It is short, I know. But I can't help it."

She stormed for a while, but finally said me and let me go—first assuring herself that I did not intend going elsewhere.

I felt a strange exhilaration as I hurried home. I had burned my bridges behind me. I would put all the effort I had put into the business of selling hats, into the business of winning back my husband. I didn't yet believe that just keeping house was all that Robert needed, but it might be one of the things. Mary had been so sure; and Betty and Jane had often told me that Robert would love a home.

As I had told Mary, I would do anything to keep my husband.

Tomorrow—A Surprise.

## PROF. JOINER NOT REMOVED; RESIGNED

The Gazette and Republican wish to correct an error which appeared in the last issue of these papers, concerning that status of Professor William A. Joiner, head of the Combined Normal and Industrial Department of Wilberforce.

The Gazette and Republican stated that Professor Joiner had been removed by the board of trustees at their meeting Friday evening. This information has received from W. S. Scarborough, president of the institution. As a matter of fact while a motion had been passed early in the session taking this action, it was later expunged from the records, and Professor Joiner's resignation accepted to take effect June 30.

## THE WOMAN WHO LOVED---AND EARNED

BY JANE PHELPS

A MODERN STORY OF HOME AND BUSINESS

### ADVICE—AND A DECISION

Chapter 33.

"Gerry Meredith, you have got to lose your husband or your job. Which is it going to be?"

"I mean it, Gerry. Before Robert was married he planned to have a home, you in it. If he had known you would not make a home for him, he would have married Marion Hovey. Everyone."

"You don't understand, Mary. We talked it over, and he said I could keep on working."

"I know all about that—what he said. But he thought you would love him well enough after you were married to do as he wanted. He was always talking about a home when I first knew him, and that wasn't until after you were married."

"But, Mary, he doesn't earn enough to live on."

"He would have—if you hadn't butted in with your salary. It will take him a little longer now to get ahead; but I'll bet my last dollar he'll make good if you will do as I say."

"It's been in my mind to tell you things for a long time, Gerry—to tell you that Robert was changing for the worse. But I guess Marion rubbed it in, so there ain't no need for me to. Robert is affectionate, likes to be made a fuss over, Marion has done it. Don't scowl. If it hadn't been her, it would have been some other woman, and perhaps a worse one. Now will you try some-

thing I have in my mind? If it doesn't work out, why no damage is done. If it does, then it is up to you."

"What is it?" I asked meekly. Mary too, had accused me of being a harmful influence to Robert.

"I have hinted and hinted that nothing would be different unless you got out of that miserable boarding house, and into a place by yourselves. He knows you ain't ever alone when he is out, he hates the place, so he stays out and leaves you. Now Gardner can't very well come and see me like he wants to; it ain't proper, and he won't do anything to compromise me. What I have planned is for us to change off. "Wait. Don't ask Robert a thing about it. Just tell him it is done, that you are tired and need a rest. Then put it up to him to hustle so you can get it. I'll move over tonight. Gardner will help me, and you and Robert can move in."

That afternoon I told Madame I must have at least a month's vacation, and that I must leave that night. "But Gerry! I can't let you go on such short notice."

"It is short, I know. But I can't help it."

She stormed for a while, but finally paid me and let me go—first assuring herself that I did not intend going elsewhere.
